CAREER OBJECTIVE

- Creative and detail-oriented aspiring frontend developer with a strong interest in designing user-friendly interfaces and solving real-world problems through innovative solutions. Passionate about blending design and technology to deliver engaging digital experiences.

EDUCATION

- **Bachelor of Technology (CSE)**, Malla Reddy University, Hyderabad — CGPA: 8.15 — 2022 – 2026
- **Intermediate (MPC)**, Narayana Junior College — 90% — 2020 – 2022
- **SSC**, CMR Model High School — GPA: 10 — 2019 – 2020

PROJECTS

DILIVERY:
Developed a food waste reduction app that connects individuals, restaurants, and grocery stores with charities and food banks to distribute excess food. Built features and assisted coding using **HTML, CSS** (Frontend) and **Python** (Backend) on VS Code. Enabled efficient food redistribution, reducing waste while supporting communities in need.

SAVOURY RECIPES:
Built a recipe finder app based on ingredient similarity to address common cooking issues. Implemented features using **React.js** (Frontend) and **Node.js, Express.js, MongoDB** (Backend). Enhanced user experience by simplifying recipe discovery and encouraging smarter cooking choices.

GIT TRACKER:
Developed a web app to track user information using an external API. Implemented features with **HTML, CSS, JavaScript** to fetch, display, and manage user data efficiently.

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL, HTML, CSS, JavaScript

Frontend Frameworks: React.js (Basic)

Tools & Platforms: GitHub, VS Code, Postman, MySQL Workbench

Core Competencies: Problem-Solving, Team Collaboration, Communication Skills

ACHIEVEMENTS

- Secured top 10% rank in a university-level coding competition for problem-solving using Python and Java.
- Successfully completed 3 online certifications in HTML, Python, and Java, enhancing full-stack development skills.
- Consistently recognized for effective teamwork and communication in collaborative development projects.

CERTIFICATIONS

- **Introduction to HTML – Coursera Project Network** *2024*
  Gained hands-on experience with basic HTML elements and developed a clear understanding of structuring web pages.
- **Python Basics – University of Michigan (Coursera)** *2024*
  Learned fundamentals of Python programming, including variables, decision-making, and function creation.
- **Introduction to Java – LearnQuest (Coursera)** *2024*
  Covered core Java concepts such as data types and control structures, applying them to solve real-world problems.
